Label Figure 1 with the designation –Prior Art--.

Allowable Subject Matter

Claims 1-16 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claims 1-10, 15, and 16, the prior art does not disclose or suggest the claimed semiconductor device, particularly characterized by a plurality of cells each having: i) a source region, ii) a drain region, and iii) an insulated gate trench that extends into a body region, wherein the source region and the drain region of each cell extends into the body region and along part of the side walls of the gate trench, and neither the source region nor the drain region is formed by a shared region.

Regarding claims 11, 13, and 14, the prior art does not disclose the claimed semiconductor device, particularly characterized by: i) a source region, ii) a drain region, and iii) an insulated gate trench that extends into a body region, wherein the insulated gate trench has a gate conductor that is insulated from the source region and the drain region by a gate dielectric on the sidewalls, endwalls, and a bottom of the trench, and the gate dielectric is in contact with the source region, the drain region, and the gate conductor.

Regarding claim 12, the prior art does not disclose the claimed semiconductor device, particularly characterized by: i) a source region, ii) a drain region, and iii) an insulated gate trench, wherein each of the source region, the drain region, and the insulated gate trench extends into a body region, and end portions of the insulated gate trench extend into the source region and the drain region such that the end portions of the trench are surrounded by the source and drain regions on three sides at respective ends.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
